Florida Water.

This exquisite Perfume is prepared direct from Blooming Tropical Flowers, of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a Delightful Buoancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For

Fainting Turns,
Nervousness,
Headache,
Debility,
And Hysteria,

It is a sure and speedy relief with the very ELITE Fashion; it has for 25 years maintained its ascendancy over all other perfumes, throughout the West Indies Cuba, Mexico and Central and South America, and we confidently recommend it as an article which, for delicacy of flavor, richness of bouquet, and permanency has no equal. It will also remove from the skin

Roughness,
Blotches,
Sun Burn,
Freckles,
And Pimples.

It is as delicious as the OTTO OF ROSES and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifrice, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

Blackwood's Edinburgh Magazine, Tory

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time, to Americans not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief-of-staff to Gen. J. E. B. Stuart, of the Confederate army.

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE. Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See the TIMES July 13th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J.T. Davenport, that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne. See LANCET, Dec. 31, 1864.

Dr J. Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866.—'It is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.'

Dr J. Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

Dr J. Collis Browne's Chlorodyne is a certain cure in Cholera, Dysentery, Diarrhœa, Colics, &c.

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.' From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—'Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other medicines had failed.'

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words 'Dr. J. Collis Browne's Chlorodyne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle. The Grouse Creek Imbroglio.

The news from Grouse Creek is of a most melancholy character. The Flume Company's ground has been again invaded, a writ of injunction treated as so much blank paper, and the law for a third time set at defiance. Had the Governor pursued a manly, straightforward course when dealing with the trespassers in the first instance, the present difficulty could not have arisen, and the matter would have been in a fair way for adjustment upon its merits. As it stands now all is "confusion worse confounded," and should the telegram we have received be borne out by the facts, the Governor has got to either adopt some vigorous measures or resign the Government into the hands of a gentleman more competent to control its destinies than he has shown himself to be. At present, with the meagre despatch before us, we are unable to say much. We have telegraphed for the particulars, and when they shall have come to hand will be better prepared to discuss the matter upon its merits. But whether the Canadian Company have acted as badly as it would appear from the despatch or not, the Governor's responsibility for the bungling manner in which he undertook to arrange the first difficulty has called down the condemnation of every man who has a dollar invested in the Colony, as it will surely be followed by the censure of the Imperial Government.

The Case of the "Aid" again.

Dr Johnson's definition of a ship and life at sea is rather a suggestive one. According to him "a ship is a prison with the chance of being drowned," and those on board ships are in this respect as much at the mercy of the captain and those in authority as the prisoners of a jail are at the mercy of the turnkey. It is therefore the duty of the Government to see that this power is not abused, and that proper care is taken of the health of those thus serving who cannot choose either their own food or air. Such is the practice of the Imperial Government, who, through the "Board of Trade" at home, make careful enquiries into all cases of neglect on the part of either shipmaster or owner. Unfortunately such instances are neither few nor far between, and cases of scurvy have lately been a special object of their attention. Such a case as the Aid would at once have been enquired into. It is now so well known how to avoid such deplorable results as these here that the occurrence of scurvy in a ship is considered a "shipwreck" to some one. Nay, in the case of the death of a sailor from this disease, some one is quite as much responsible as if the fatal event were due to the wilful administration of a deadly poison. This disease only affects through the culpable neglect of owners or shipmasters by the want of proper nutriment in the shape of food, and in a long passage such as this one there is no excuse for not calling in either at the Falkland Islands or at some one of the numerous ports in South America or the Sandwich Islands for fresh supplies. The odium rests with some one, and the case ought to be enquired into, as not only the death of two men but the imperilling of the ship and crew might have been the result of such wilful neglect. Ships have foundered at sea by being so shorthanded owing to sickness as to be unable to be handled properly when overtaken by severe weather, and such might have been the case here, where two-thirds of the crew were laid prostrate by a disease easily preventable, having only five hands out of a complement of twelve to work the ship. What the results to the cargo and crew in bad weather would be, is obvious; yet in the face of all this, with his crew short, the captain runs past places where by a few hours' delay he would have obtained sufficient fresh provisions as to have prevented such melancholy results.

Scurvy and its Sad Consequences on the Bark "Aid."

MESSRS. EDITORS:—I consider the thanks of this community are due to you for the prominent notice given in your journal to this matter. This is not the first time, by many, that it has been the painful duty of the press of Victoria to record the sad and fatal effects of scurvy, resulting from the long voyage from England to this port; neither, I take it, will it be by a great many the last, unless some action be taken in this matter to prevent its recurrence. Of one thing we may feel assured—and this opens out widely the necessity for stirring in this business—*that such things need not be*, that if *proper precautions and provisions* were taken these terrible cases of suffering *would not occur*, that it ought to be regarded as one of the things that belonged to an ignorant and barbarous past, and should be looked upon as a reflection upon the enlightenment and humanity of the present age. Taking this view of it, and assuming these premises to be correct, is it too severe to say, that to those from whom the due precaution and care in such cases is owing, may be brought home the charge of being accessories to the fact. The announcement of the circumstance of the deaths of some of these sufferers and the sad condition of the others may, perhaps, by some, be lost sight of in the gratification felt at the arrival of the vessel and the probable profits resulting therefrom, and that, with others, the simple circumstance of a few common sailors at the end of a long voyage being overtaken by distress and suffering, was scarcely worth much or any attention. But no manifestations of indifference of this kind alter the fact or importance of the case, or the necessity of the matter being looked into. It is a way of evading duty and apologizing for it that might have been tolerated some twenty-five years ago, but since that period a new era has arrived; this is a humane age, and in nothing has it been more strikingly exemplified than in the care and attention that has been demanded both by the legislature and philanthropist, that the distress, cruelties and barbarities hitherto in operation with regard to maritime life should not continue to be in existence. Owners and captains of vessels sailing from England for Australia are thoroughly impressed with this sentiment, and take good care to be circumspect in their arrangements, well knowing that any direlection, neglect, or omission of duty would bring speedy retribution on arrival at port. Now I do not say that any charge of neglect or omission of duty can be brought home to any party or parties in this case; but, judging from the statement in your paper, I say a *prima facie* case is made out, and there ought most distinctly to be enquiry into the matter. The very circumstance of there being a "Goshen" in the ship is sufficient to warrant it. The fact that disaster fell upon those forward and that those aft were all spared, is enough for that purpose; as to whose duty it is to move in this matter, I leave an open question. You, sirs, have done your duty, and the matter now rests with the Government or the community.

One of these unfortunate men, the crew of the "Aid," has had the billow for his winding sheet; one has found his last home in our cemetery; others when relieved from our hospital will perhaps drag a weary life the rest of their days, the results of the voyage as men before the mast in an English vessel to our shore. But lightly as we perhaps may let it pass amongst us, let us not forget the commisserating remark of some sympathizing mother who when she saw a group of boys stoning some poor daft creature exclaimed, "dinna do it—he's *somebody's* bairn." And who knows but when the sad tidings of the death and sufferings of these poor men reach the land from whence they sailed, of how poor Sandy was thrown overboard and of the sufferings of poor Pat, that many tears may run down the face of the *somebody* to whom the "bairns" belonged?

HUMANITUS.

The Rite of Baptism.

VICTORIA, August 23d, 1867.

EDITORS COLONIST—I was called upon this day to give Christain burial to an infant child of Capt. Swanson's, after it had been refused the same by the Episcopal Bishop of the Colony. The child, just twenty-two days old, was ill; the father goes for an Episcopal clergyman to baptise it. He returns to find the child dead, and as the spirit of the infant departed before this rite of the church was performed, the father is told by both bishop and clergyman that the body must be consigned to the grave (as men in olden time buried the murderer) without a word of hope from the lips of those who claim to be the special representatives of the infant-loving Saviour. Surely, when men of known vicious habits and questionable deaths are buried in "sure and certain hope," some word of consolation might be spoken over the grave of a child "taken from the evil to come."

A. BROWNING.

The Dominion of Canada.

[From the New York Tablet]

There is something grand, nay, sublime, in the birth of a new dominion, be it empire, kingdom, or republic. It is a moment fraught with solemn thought, when the nations of the earth can say with one acclaim, "a new State, a new Nation is born unto us." Time, the great father of the great I AM, has given to the family of nations a new number—the present, conceiving of the past, has borne unto the future a child of great promise. A star has arisen in the northern sky, and who may calculate its future magnitude? Vast are the regions that own the sway of this new dominion, stretching far into the north, even to the shores of Hudson's Bay, and from Lake Huron and Georgian Bay to the Atlantic Ocean. Hitherto this immense territory was of comparatively small account in the scale of political economy, in the history of the world counted almost nothing. And wherefore this? Because it was merely known as "the British Colonies of North America"—detached colonies, too, and was, therefore, neither of more nor less account than a dependency of Great Britain—a dependency, moreover, which was well known to be rather an incumbrance than otherwise to the Mother Country.

Now, this must have been a somewhat mortifying state of things for the high spirited, intelligent, and enterprising people of all the Provinces, and we think they have done well in assuming an attitude more becoming their rapid growth and nationality—under the protection of course, of the mother country. It was time for Canada and New Brunswick, and Nova Scotia to cast off the chrysalid shell of the colonial state, and come forth in the newer existence befitting their increased development. None know better than we the talent, the energy, the public spirit, the general intelligence of those British colonists—we have lived amongst them, we know what they have done, and what they are capable of doing, and we are glad that they have made themselves a nation. As a people they are full of life and vigor; there is a freshness and a heartiness about them that augers well for their national success. Their moral and political atmosphere is, as yet, free, to a great extent, from the vitiating influences that counteract the best legislation in older States. Their politicians have not reached those depths of moral degradation wherein all principle, all ideas of patriotism are lost sight of, and only poor petty, private interest is kept in view; they may establish their dominion on a good and solid basis while their sky is still unclouded, their path free before them and the wheels of their chariot unclogged by the leaden weight of the venal corruption that is the curse of countries we all know.

The formation of this new State, the ushering in of this new constellation on the northern hemisphere, bears the impress of a master mind, of a far-seeing, all grasping genius. Happily accomplished, it is something to be proud of, and all who are interested in the noble country, and nobler people, beyond our northern frontiers, are proud of it, and do sincerely felicitate those who have effected such a favorable change in the destinies of "the British North American Colonies"—colonies now no longer.

If our friends beyond the St Lawrence would permit us, and we think they will, to make one suggestion on this auspicious occasion, we would remind them that there are a number of poor Fenians in Canadian jails the dupes of selfish and designing knaves, who led them into bondage and there left them. Will the government of Canada shew itself more merciful to these misguided men than their own leaders, and inaugurate its new dominion by a splendid act of mercy? Let our young Queen of the North make her entrance into the assembly of nations with this act of amnesty to the Fenian prisoners in her hand, let her set the jewel of mercy in the maple wreath that binds her noble brow, and at once she will enlist the warm sympathy and excite the admiration of the civilised world Even the Czar Alexander has had to bow to the sublime fact that mercy is an attribute of our age's civilization; he has pronounced a general amnesty in favor of his Polish captives. Will Canada be less merciful than Russia? We cannot believe it. She will not enter on the new and more glorious path of her altered destiny like the Roman conquerors of pagan times, with captives chained to her triumphal car. Her trimmph is a peaceful one; if she would have the blessing of peace, on her opening career, she has now a fitting opportunity to exercise mercy, and prove her title to nationality by an act of sublime magnanimity.

The Dominion of Canada.

From the Charleston Mercury, June 11.

The prospect that Canada will soon be reorganized as a dominion under the protectorate and supreme authority of the English Government, is not received with particular pleasure in the northern cities of the American Union. It is acknowledged that federation will destroy local jealousies and feelings, and that, as a united people, the Canadians may expect to advance rapidly on the broad road that leads to commercial greatness and national prosperity; but, to save the prestige of the Union, it is argued that the new scheme will in the end accomplish just what its promoters seek to avoid,—the absorption of Canada by the United States.

The reasons alleged are that Canada still clings to the old and absurd ideas of caste, that the scheme of confederation is merely a cover to introduce into the new dominion all the customs of the aristocracy of the old world, that a repugnance to any distinction on account of gentle blood has been infused into Canadian people from the southern shores of the St. Lawrence, and that these elements working together will, in the course of twenty years, bring over that half of the population which is still opposed to annexation, and prefers to remain, as at present, a dependency of Great Britain.

Plausible as this catalogue of reasons may be considered, it gives but a very poor idea of the truth. The Canadians, have, it is true, bitter feelings amongst themselves. They are opposed to paying their quota of the expense of defending themselves against hostile attack or threatening demonstration; they wish to be rich, powerful, and independent; but while these last things are not within their grasp, and while further support is necessary, they prefer England to the United States, and so will continue to do.

Surely when the Canadians look south there is nothing to fill them with envy or desire. They see a country in which party rules; they see a country in which the few in power oppress and injure the many, upon whom the sun of fortune no longer shines; they see a country in which ten millions of people are tied hand and foot, and placed under the control of an irresponsible military despotism; they see a country in which trade is languishing and commerce is stagnant; they see a country bowed down 'neath the weight of an enormous debt, and a people groaning under excessive taxation; they see a country in which the masses pay millions of dollars out of their scant store to support the mills and factories of New England and Pennsylvania; they see a once great nation hurrying on to destruction and wantonly deaf to the words of warning wisdom. This is what the Canadians can and do see; and this will outweigh a thousand ranting speeches upon equal rights and abolition of the aristocracy. Do not the Canadians know that a union with the United States would impose upon them a share of the general burden, and a proportion of the general trouble? They do know it; and while they know it they will remain in that quiet and free condition which they now so well enjoy.

One day a change may come; one day this reign of terror may have passed. Then let the United States show Canada a united and happy people, enjoying alike freedom and the protection of just laws, and living under a Government whose aim it is to guard the liberties of the individual as well as the license of the blatant thousands, and then they may offer to receive the new Dominion into the Union without any suspicion being formed that self interest is the ruling motive of their words. But even then, Canada should act, as she would do at this moment. There is a conservative and reasoning spirit in her people; and they will, in all time, prefer an authority which they can respect and a freedom which has been tried and not found wanting, in preference to casting their lot with those of a nation in which justice and protection were least found when they most were needed.

SPECIAL TO THE DAILY BRITISH COLONIST

From Grouse Creek.

QUESNELLEMOUTH, Aug. 23, 10 a.m.

Since the Governor left the Sparrowhawk Company have jumped the Flume Company's Ground.

Booth has been elected Foreman.

The jumpers are working all the Flume ground.

Ball issued an injunction. They refused to obey and declared in open Court they would work the ground in spite of all restrictions

Warrants of arrest were issued. The Canadians refused to obey. The Commissioner is perfectly powerless.

[Upon receipt of above, we telegraphed for confirmation, which was at once furnished with a responsible name attached. EDS COLONIST.]

LAST NIGHT'S DESPATCHES

Europe.

NEW YORK, Aug 20.—The Scotia brings dates to Aug 11th.

It appears there were 63,000 cases of cholera between January and July, and 32,000 deaths [where?] At latest dates at Palermo the deaths averaged 190 daily.

The ex-Queen of Naples died of cholera.

It is rumored in Paris, probably unfounded, that 40,000 troops have been ordered to Rome.

MADRID, Aug 19.—Baring Bros., at London, and Hope, at Amsterdam, have contracted for the conversion of the Passive debt.

Crops of wheat, oats and wine are short throughout Portugal.

The commander of the Austrian war vessel in the Candian waters has been instructed to afford the Cretan refugees an assylum on board his vessel and convey them to a place of safety.

ROME, Aug 20.—The mission of the United States to the Holy See being discontinued, the American Legation at Rome is closed.

SALESBURY, Aug 19.—The Emperors of France and Austria had a conference for several hours to-day. The reception of the party was most enthusiastic. Since their arrival Napoleon had been treated with marked honor and consideration. It is understood that the visit will terminate on Friday.

SALESBURY, Aug 20.—Napoleon held a long conference to-day with Von Buest, the premier of Austria. Private interviews between the sovereigns have resulted in good understanding, but no treaty is made.

LIVERPOOL, Aug 21.—The important suit of the Western Pacific Steamship Company vs. Williams and Guoin resulted in a judgment for plaintiffs with damages assessed at £13,000. This suit grew out of the nitro-glycerine explosion at Aspinwall, by which the steamship European was totally destroyed.

LONDON, Aug 21.—Parliament was prorogued to-day, the Queen not being present, by commission. The Queen declares that there is no longer any ground for apprehension of war in Europe. The treasonable conspiracies in Ireland have proved futile and the attempt at revolt has been suppressed almost without bloodshed by the valor of the troops, the vigilance and activity of the police and the general loyalty of the people. The law has been vindicated without the sacrifice of human life. The speech refers with satisfaction to the new postal treaty with the United States, and in conclusion congratulates Parliament and the country on the completion of the Canadian Union, the passing of the Reform bill and the adoption of other measures beneficial to the United Kingdom.

It is reported from Madrid that the revolt in Catalonia has failed.

FLORENCE, Aug 21.—The Italian Parliament was prorogued to-day.

Garibaldi has again been obliged to defer the movement on Rome. The preparations which were being made by the party of action throughout Italy have been suspended.

LONDON, August 21—It is stated that the Sultan has organized a new Council, composed of an equal number of Greeks and Turks.

Races at York to-day were well attended. Juse won the Elton's stakes.

Eastern States.

The *Times'* special says the President has sent an order to Grant directing him to relieve Sheridan and transfer Thomas to the vacancy. Until further orders Sheridan is assigned to the Department of Missouri and Kansas, and Hancock to the Department of Cumberland. Before issuing the orders Grant went to the President and advised with him not to withdraw Hancock from the plains. The President acquiesced.

WASHINGTON, August 21st.—General Grant has issued an order mustering out of service all additional paymasters, to take effect on the 1st of October. The new programme, it appears, is to dispense with all officers not in the regular service.

Canada.

MONTREAL, August 20.—Middleton's coal oil store was burned down last night. 600,000 gallons of oil were consumed, making one of the most terrible conflagrations ever witnessed. Loss over $150,000.

California.

SAN FRANCISCO, August 22—Arrived August 19—Bark Oakland, 10 days from Port Madison. Sailed 20th—Bark Carlotta, Puget Sound.

THE BRITISH COLONIST.

Saturday Morning, August 24, 1867.

Auction Sales To-day.

J P DAVIES & CO.....Wharf street.....will sell at Cattle Sale Yard, Fort street, at 12 o'clock noon, Heifers and Steers, Cows, Horses, Geese, Turkeys and Chickens, etc.

A FREAK OF THE LIGHTNING—Last fall the cable between Lop z and San Juan Islands suddenly failed to transmit the electric current, and after repeated trials and as many failures, a new cable was laid and the defective piece raised and brought to Victoria. A few days ago the Superintendent of the line, by the means of a galvometer, discovered the defect. The cable at one of the shore-ends had been struck by lightning, which ran through the copper wire until it reached a spot where the gutta percha was defective, when it burned a hole through the cable and escaped. For several feet the gutta percha was burned entirely up and the copper wire fused as completely as though the work had been done at a furnace fire. The defective portion of the cable having been cut off, the ends were spliced and the remainder of the length now works as well as before.

JEFFERSON DAVIS AND THE CANADIANS.—Mr Jefferson Davis was lately serenaded at Niagara. He expressed his thanks in the following speech: "Gentlemen, I thank you sincerely for the honor you have this evening shown me. It shows that true British manhood to which misfortune is always attractive. May peace and prosperity be for ever the blessing of Canada, for she has been the asylum of many of our friends, as she is now an asylum for myself. I hope that Canada may for ever remain a part of the British Empire; and may God bless you all, and the British flag never cease to wave over you."

THE following paragraph is going the rounds of the Paris journals: "Prince Moskeifayo, son-in-law of Queen Pomare, is expected in Paris early in October. This Oceanic prince is a Parisian of pure blood, well known on the Boulevards; and if we are not mistaken the real name of the prince is Rogues, and he held the piano two years ago at the Varieties Theatre as accompaniest. Probably finding himself dull in the Sandwich Islands, he has made a pretext of wishing to see the Exhibition to return to France with his young wife, and to never go back to his mother-in-law's kingdom.

KEEN—Horsey Young England is falling into the evil habit of consorting familiarly with trainers and jockeys, whilom grooms and stable boys, of admitting them on equal terms to his table, and of sitting on equal terms at theirs. On the occasion of a dinner given the other day by a sporting nobleman to celebrate a success which had been unexpectedly 'pulled off" at Hampton Races, a gentleman invited to join the party cynically replied that he declined to come himself, but that he should have no objection to send his valet, who, he believed, was a very agreeable fellow and who would double as find himself at home in such society.—*Pall Mall Gazette.*

THE THEATRE—This evening Miss Virginie Soledad, an accomplished young actress, will make her first appearance at the Victoria Theatre. Several new songs will be produced, and together with dance, burlesque and farce, will contribute to furnish a very pleasant evening's entertainment. Mr Hermann, the renowned ma ician, will also appear and exhibit his celebrated scenes from the magic world. The box-office will be open to-day from 12 m, to 2 p. m;, when parties desirous of procuring seats may do so.

THE BOARD OF EDUCATION—Governor Seymour has notified the Board of Education that he will meet a deputation from their body on Monday next, at 12:30 o'clock. The readiness of his Excellency to receive the Board, and the respect he has paid to their previous recommendations and suggestions, lead us to hope that the interview will result in good to the system of free secular education.

COMMUNICATION WITH THE CAPITAL—The steamer Alexandra will not be prepared to resume her trips until Wednesday or Thursday. Communication with the capital is therefore difficult, as only the Fly is on the route, the Isabel being too busily engaged in towing ships to allow of her making a trip. The Enterprise, too, is taking in her new boiler, and cannot be ready for some weeks.

A MEETING OF DELUGE ENGINE COMPANY, No 1, was held last evening at the house, when it was unanimously resolved to nominate Mr E C Holden as their candidate for the office of Chief at the ensuing election, and to support the nominee (Mr A. F. Hicks) of the U. H. and L. Company, as Assistant Engineer.

ASSAULT.—Henry Miller, who not many days ago was brought before the Police Magistrate upon a charge of assaulting a man named Waters, was arrested again yesterday, charged with the unmanly act of beating a squaw. The Magistrate fined him £5 and cautioned him to be less pugnacious in the future.

BRUNN'S BRANCH—Good and cheap selected Clothing, Hats and Gentlemen's Furnishing Goods, to suit the present times and present population, at J. BRUNN & Co.'s, Yates street, Victoria, opposite the Bank of British North America. au24 1m*

NOMINATION.—Union Hook and Ladder Company have nominated Mr E. C. Holden for the office of Chief Engineer, and Mr A. F. Hicks for Assistant. The nominees are old and efficient firemen.

FROM NEW WESTMINSTER—The steamer Leviathan came down from New Westminster last evening with Mr Wylde and Mr Richardson as passengers. The news is unimportant.

GROUSE are now very numerous in the woods in this vicinity, and many amateur sportsmen are engaged in "bagging" the feathered bipeds.

A FINE lot of cattle from San Juan Island are expected on the Fly to-night. They will be sold at Davies' cattle yard on Saturday next.

THE Fire Department Drill will be held to-day, at the corner of Yates and Government streets, commencing at 3 o'clock.

POST OFFICE AND CUSTOM HOUSE—The Custom House was removed to the Government building, on Government street, yesterday, and the Post Office will be located in the adjoining building on the same thoroughfare after Tuesday next.

THE Fly is expected from New Westminster this evening.

PERRY DAVIS'

VEGETABLE PAIN KILLER.

The Greatest Family Medicine of the age

Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painter's colic Asiatic cholera, diarrhœa and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. IT IS A SURE REMEDY FOR A AND CHILLS AND FEVER.

What is your Ailment?—A hundred varieties of disease may be traced to the stomach. For each and all of them, common sense suggests that the medicine which restores that organ to its full vigor, is the true remedy. If common sense demands what that remedy is, experience answers, **Bristol's Sugar-coated Pills.** Cathartics are plenty, but nine-tenths of them give only temporary relief, and many are dangerous. It is better to let dyspepsia have its way, than to attempt its cure with mercury. The so called remedy will destroy the patient more rapidly than the disease. Not so **Bristol's Sugar-coated Pills,** which owe their efficacy solely to vegetable extracts. If the liver is wrong, they put it right; if the bowels are clogged with obstructions, they remove them; if the stomach is incapable of perfect digestion, they impart to it the required tone and vivacity. They are put up in glass vials, and will keep in any climate. In cases arising from, or aggravated by impure blood, BRISTOL'S SARSAPARILLA should be used connection with the Pills. 413

The Progress of a Luxury.—For thirty years the fashionable world has been perfumed with **Murray and Lanman's Florida Water,** and its fame has been spreading as time flew. Having taken precedence of all other toilet odors in the United States, it passed to the Southern Peninsula, and thence to all Spanish America, continental and insular. When California became a State, she demanded it; and then Australia received it. With every civilized community in the Western world its name is a household word, its fragrance and refreshing power a household blessing. And still its reputation extends, and is likely to extend, to wherever an exquisite floral perfume is appreciated. ☞ Purchasers are requested to see that the words "FLORIDA WATER, MURRAY AND LANMAN, No. 69 Water street, New York," are stamped in the glass on each bottle. Without this none is genuine. 524

Hereditary Disease.—The lives of thousands are blighted by hereditary scrofula. Yet it is curable. An alkali does not more certainly neutralize an acid than **Bristol's Sarsaparilla** deprives the scrofulous and syphilitic virus of its sting. It is the only antiseptic which will arrest ulcerous maladies of the virulent class, and prevent the possibility of their being transmitted to the next generation. The patient is cured constitutionally, and becomes as sound in every fibre, as though he had never known disease. Of course, to effect so great a change, it is necessary to continue the use of the Sarsaparilla a number of months. **Bristol's Vegetable Pills** should at the same time be used in moderate doses. 514

HOLLOWAY'S PILLS.—Stomach, Liver and Bowels.—In all painful affections of the stomach, and disordered actions of the liver and bowels, one single trial of these Pills will demonstrate that they possess regulating and renovating powers in a high degree. They speedily restore the appetite, lessen the unpleasant distention of the abdomen, and so prevent inflammation of the bowels, and other serious abdominal ailments. Holloway's Pills afford the greatest comfort to the dyspeptic invalid without harassing or weakening the most sensitive constitution, or interfering materially with the ordinary studies, pleasures or pursuits. The simplicity and efficiency of this treatment has evoked the gratitude of all classes in both hemispheres, and commanded a sale for these purifying Pills unprecedented in medical history. 25

A GREAT MANY SIDE HITS ARE being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are in same sized bottle and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The recipe and full Circular are around each bottle. Clergymen, Merchants and persons whose sedentary habits induce weakness lassitude, palpitation of the heart, lack of appetite distress after eating, liver complaint, constipation, &c. will find immediate and permanent relief in these Bitters but above all, they are recommended to weak and delicate female and mothers.

The original quality and high character of these drug will be sustained under every and all circumstances they have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as nea our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

It overcomes the unpleasant odor of perspiration.
It removes redness, tan, blotches, &c.
It cures nervous headache and allays inflammation.
It cools, softens and adds delicacy to the skin.
It yields a subdued and lasting perfume.
It cures musqueto bites and stings of insects.
It contains no material injuries to the skin.

It is what every lady should have. Sold everywhere Try the Magnolia Water once and you will use no other Cologne, Perfumery or Toilet Water afterwards.

Over a Million Dollars Saved.

GENTLEMEN:—"I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment It soon effected a permanent cure."

J. L. DOWNING.

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensible article for Sprains, Scars, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT

Foreman for American, Wells Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED SEELY

Gloucester, Mass. August 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of G. Wo Westbrook, Chemist, and the private U. S. stamp Demas Barnes & Co. over the cop.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon permaturely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

THE STANDARD

Life Assurance Company

ESTABLISHED 1825.

CONSTITUTED BY SPECIAL ACTS OF PARLIAMENT.

ANNUAL REPORT, 1867.

THE FORTY-FIRST ANNUAL GENERAL Meeting of the STANDARD LIFE ASSURANCE COMPANY was held at Edinburgh on Wednesday the 8th of May, 1867,—

H. MAXWELL INGLIS, Esq., P.C.S., in the Chair.

THE MANAGER submitted to the Meeting—

Report by the Directors as to the Progress of the Business during the Year 1866.

The Annual Report on the Books and Accounts by the Auditor of the Company, certifying that he had found the whole Accounts accurately stated and properly vouched.

Balance Sheet of the Company's Affairs, certified by the Auditor and three of the Directors, in accordance with the Acts of Parliament constituting the Company.

A General and Comparative Statement explanatory of the Progress of the Business from 1825 to 1866.

THE REPORT submitted by the Directors was shortly as follows:

The Board of Directors have again the pleasure of congratulating the Proprietors of the Company on its continued satisfactory progress.

On occasion of the last Annual General Meeting in the Spring of 1866, the Directors had the pleasure of reporting the progress and completion of large and important negotiations—namely, the transfer of the business of the MINERVA and VICTORIA OFFICES, and the successful amalgamation with the COLONIAL LIFE ASSURANCE COMPANY, all of which brought new connections and varied advantages to the Institution.

In May 1866, the satisfactory result of the Quinquennial Investigation into the Company's Affairs, and Division of Profits, as at 15th November, 1865, was reported, when the Company commenced the work of another lustrum, strengthened by its new and extended connections, supported on a broader basis, and full of confidence in the future, arising from the thorough investigation which its Affairs had undergone with a successful and satisfactory issue.

The first year of the new period has been marked, the Directors have pleasure in reporting, by complete success; not only as regards the New Business transacted, but what is equally, if not more, important, the thorough and complete retention of the interests and connections of those Companies whose business was transferred to, or amalgamated with, the STANDARD.

The new Business, however, is perhaps the most tangible exponent of this statement, and the Directors are satisfied to rely on it as the test of their assertion.

THE following are the Results of the Business for the year under review:—

Amount Proposed for Assurance during the year from 15th Nov., 1865, to 15th Nov., 1866	£1,430,927 0 4
Number of Proposals for Assurance, 2389	
Amount of Assurances Accepted	£1,190,281 11 2
Number of Assurances Completed, exclusive of Annuities, 2013	
Amount of Annual Premiums on new Business	£38,918 19 11
Amount of Claims by Death, exclusive of Bonus Additions	£314,376 3 10
Annual Revenue	£675,267 6 8
Accumulated Fund	£3,700,005 1 4

These figures represent numerous interests and an important trust, not much fewer than 28,000 persons holding Policies from the Institution. They are also a sure test of the confidence placed in the Institution by the public; and the Directors, impressed with the responsibility which such a trust involves, make it their study to conduct the business on the soundest principles, free from speculation or undue anxiety to make profits.

In accordance with these principles, the Directors have confined the investment of the Company's large Funds to thoroughly reliable securities, preferring for the great bulk of their Investments the mortgage of land at fair rates of interest to increased returns on Investments of a less certain nature; and in proof of this they request attention to the following statement, showing the Company's Investments as at 15th November, 1866:—

Mortgages and other Landed Securities	£2,535,748 14 6
Government Securities	86,782
Loans on the Company's Policies within their Surrender Value	198,610 2 5
Stocks and Debentures	218,313 9 6
Bank Balances, Agents' Balances, and Premiums in which Days of Grace are current	323,675 2 0
Invested abroad in connection with Colonial business	49,275 17 2
Life Annuities and Reversions purchased	34,403 14 9
Various other Investments	253,195 3 10
	£3,700,005 1 4

The Directors are satisfied that all interested will approve of this course of procedure.

To all other points of Management the attention of the Directors is carefully directed. The records of the Company's transactions have been brought into the most thorough state of efficiency, after giving effect to the transfers and amalgamation which have been carried through—a matter of the greatest importance in connection with transactions of such magnitude; and the endeavour of the Directors in future will be to conduct the Institution in such a manner as to develop the resources at its command without seeking further extension of its field of action, making it their study to produce as much profit as they can, consistently with liberal dealing, for the advantage of all interested.

The Report was unanimously adopted.

The Election of New Directors, to supply the places of those who retire by rotation, in terms of the Company's Acts of Parliament, followed. The Establishment was then constituted as follows for the ensuing year:—

Medical.

Scrofula, or King's Evil.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

BY GRIMAULT & CO.,

Chemist to H. I. H. Prince Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER O

GRIMAULT'S SYRUP OF IODIZED HORSH RADISH.

The syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superio It cures diseases of the chest, scrofula, lymphatic dis orders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by purifying th blood, and is, in a word, the most powerful depurativ known. It never fatigues the stomach and bowls, and administered with the greatest efficacy to young children subject to humors or obstruction of the gland. At last, it is very efficacious in the diseases of the skin.

No More Consumption.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME.

This new medicine is a sovereign remedy in phthisi n other diseases of the lungs, promptly removes all the most serious symptoms. The cough is relieved; th night sweats cease, and the patient rapidly recovers h health.

No More Poverty of the Blood and Pale Complexion,

DRS LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colorless and tasteless. It speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhœa and anemia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to ladies of delicate constitution suffering from anemia, and other persons fatigued from over anxiety, nervous emotions, over work, general debility and poorness of blood.

It is the only preparation which never causes consti io and can be borne by the most delicate stomachs.

Nervous Headaches and Neuralgias.

Instantaneously cured by

GRIMAULT'S BRAZILIAN GUERANA.

A vegetable substance, used from time immemorial in Brazil, and entirely inoffensive.

Better than Copabia

GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs. The injection is used in recent and capsules in more chronic cases.

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerne the most wholesome influence over the internal structurets. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lesson in flamation, case pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

his class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency nd safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remed y than Holloway Ointment, assisted by his celebrated Pills, which act o powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body nd mind, false delicacy concealing them from the knowdge of the most intimate friends. Persons suffer for ears from Piles and similar complaints when they might se Holloway's Ointment with instant relief, and effect heir own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it wil gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effec a to rough cure.

Both the Ointment and Pills should be used in the fo o ing cases:—

LOUIS A GARNETT.......................President and Manager
JOHN HEWSTON, JR...........Chemist and Superintendent

THIS COMPANY HAVING GREATLY ENlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

ying Deposits for Unparted Gold Bars.

One-eighth of one per cent (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold. 2 cents per ounce.

On bullion from 300½@600 parts gold, 4 cents per ounce.

On bullion from 600½@750 parts gold, 6 cents per ounce.

On bullion from 750½@949½ parts gold, 8 cents per ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the mint—a half o one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin made in Forty eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:

For refining bullion under 300 parts gold, 3 cents per ounce.

For refining bullion from 300½@600 parts gold, 5 cents per ounce.

For refining bullion from 600½@750 parts gold, 7 cents per ounce.

For refining bullion from 750½@850 parts gold, 11 cents per ounce.

For refining bullion from 850½@949½ parts gold, 14 cents per ounce.

The charge for coinage is one-half of one per cent, and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ⅛ of one per cent—they must be sold at the following par rates to equal the return which would have been made had they been posited for coinage:

850 par to equal Mint return, at refining charge of 14 cents.

845 par to equal Mint return, at refining charge of 11 cents.

at 865 par to equal San Francisco A. & R. Works return refining charge of 8 cents. m18, 2p3m

A GREAT MANY SIDE HITS ARE being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are in same sized bottle and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The recipe and ull Circular are around each bottle. Clergymen, Merchants and persons whose sedentary habits induce weak ness lassitude, palpitation of the heart, lack of appetite distress after eating, liver complaint, constipation, &c. will find immediate and permanent relief in these Bitters but above all, they are recommended to weak and delicate female and mothers.

The original quality and high character of these drug will be sustained under every and all circumstances they have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as nea our name and style as they can, and because a good article cannot be sold as low as a poor one, they fi d some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

Over a Million Dollars Saved.

GENTLEMEN:—"I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustan Liniment It soon effected a permanent cure."

J. L. DOWNING.

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Linement as a valuable and indispensible article for Sprains, Soars, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT

Foreman for American, Wells Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED SEELY

Gloucester, Mass. August 1; 1865.

It 's an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of G. Wm Westbrook, Chemist, and the private U. S. stamp Demas Barnes & Co. over the op.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon permaturely bald heads.

This is just what Lyon's Kathairon will do. It pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Flea Powder

Lyon's Magnetic Insect Powder is instant death to Fleas, Ticks, Roaches, and everything of the insect species. It is one of the few articles that can be relied upon, and for a mere two bits we can save the bites and bills of these little pests. None is genuine unless signed by E. Lyon, and bearing the private stamp of Demas Barnes & Co., New York.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER--for Indigestion Nausea, Heartburn, Sick Headache, Cholera Morbu, Flatulency, &c., where a warm stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere, at 50 cts. per bottle. Ask for "Lyon's Pur Extract. Take no other.

Caution.--See that the private U. S. Stamp of Demas Barnes & Co., is over the cork of each bottle; none other is genuine

FARNAN'S
GOUT SPECIFIC!

An Effectual and Speedy Remedy

FOR THE

GOUT, RHEUMATISM, SCIATICA, LUMBAGO & NEURALGIA.

Farnan's Specific has stood the test of years, and its beneficial influence, as well as the extraordinary rapidity with which it acts on the system and removes pain and the cause of pain—that is to say, the condition of the blood and stomach which produced the affliction—can be witnessed to by thousands. The cure is as COMPLETE as it is RAPID, and, strengthened by the testimonies of a large body of patients who have received almost INSTANTANEOUS relief after all other remedies have failed, the proprietor has the utmost confidence in offering it to the notice of the public. To the constitution it is harmless; to the fluids of the human frame it adds a healthy impetus; to the system generally it is invigorating to a degree unparalleled; and both sexes may take it to equal advantage. A dose taken about once a month, operates most effectually in preventing a return of the complaint.
